OFFICE OF  
CHEMICAL SAFETY AND  
POLLUTION PREVENTION

November 17, 2010

Thomas W. McNally  
Vice President  
ChemFree Corporation  
8 Meca Way  
Norcross, GA 30093

Dear Mr. McNally:

The U.S. Environmental Protection Agency applauds ChemFree Corporation ("ChemFree") for your leadership in developing an environmentally oriented industrial degreaser. EPA's Design for the Environment ("DfE") program seeks to promote the use of products with improved environmental and human health characteristics. The product in our partnership – SW-4 Heavy Duty Degreasing Solution – fully achieves that objective in the I/I cleaning sector.

The key purpose of the DfE– ChemFree partnership is to recognize and encourage the environmentally preferable chemistry of the partnership product. DfE is very enthusiastic about your successful formulation of this product and about our partnership. By eliminating hazardous solvents, environmentally persistent surfactants, and other harmful ingredients, you have demonstrated active environmental stewardship and dedication to continuous improvement.

Customers who use your DfE-labeled product will be participants in this important national effort to protect the environment and safeguard human health. We commend ChemFree for your commitment to improving the environmental profile and performance of your products– and for leading change in the cleaning industry. DfE looks forward to building this partnership and wishes you much success with the partnership product.

Sincerely,

A handwritten signature in black ink that reads "Clive Davies".

Clive Davies, Chief  
Design for the Environment
